| <b>9:15 a.m. – 10:15 a.m.</b> | <b>No Skin in the Game</b><br>As the vision care industry grapples with a patchwork of state provider directory legislation, it is becoming clear that legislators are missing a large piece of the provider directory conundrum. There is no incentive or penalty for inaccurate data coming from the providers in states like California and Illinois. As data fields and accuracy requirements become more extreme, how can we work with states looking to enact legislation to ensure everyone has a little skin in the game? Which states currently require participation from all involved parties? Is there a different way to think and source data verification?<br><i>Location: Las Colinas</i> |

CARE PLANS

# VISION CARE RETREAT

APRIL 30-MAY 1, 2025

THE RITZ-CARLTON DALLAS, LAS COLINAS

10:30 a.m. – 11:30 a.m.

## **Innovating Access**

This roundtable will explore industry innovators that are providing access to vision care outside of the office. What impact will this have on consumers, the profession and the industry of technology and telehealth for remote eyecare? How can managed vision care plans think about payment models that include a remote asynchronous intermediate - not comprehensive eye exam – and refraction/testing visual acuity, leading to a prescription for corrective eyewear.

### **Panelists:**

Tim Fern, Chief Commercial Officer, Eyebot  
Warby Parker
